DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 24 April 2007.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 26-53 are under active consideration in the instant application.
4. The 102 rejections have been withdrawn following applicants' amendment.

Allowed Claims

Claims 26-53 are allowable over the prior art of record.

Reason For Allowance

The following is an examiner's statement of reasons for allowance: A search of the prior art failed to uncover any reference that anticipates or renders obvious anthracene diboronic acid derivatives and the method for using the same as claimed by applicants.

The closest prior art is Daniloff et al., {US 2002090734}. Daniloff et al. teach anthracene diboronic acid derivatives and their use for determining the presence or concentration of glucose in a sample. Applicants claimed anthracene diboronic acid derivatives differ from Daniloff et al. compounds in that applicants claim diboronic acid compounds wherein the anthracene ring is substituted with halogen, acyl, alkyloxy, nitro, carboxylic acid, carboxylic acid ester or C₃₀ hydrocarbon group while Daniloff et al. teach unsubstituted anthracene diboronic acid derivatives. This difference is not readily apparent and would not have been suggested to one of ordinary skill.

All claims (26-53) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
